Education

Jabalpur Engineering College, Jabalpur

2020 - 2024

Bachelor of Technology in Information Technology

CGPA 8.28/10

Govt. Multipurpose Malhar Ashram, Indore

2019 - 2020

Senior Secondary School (12th)

84%

Technical Skills

Technical Skills: Web Development, Dynamic Programming, Data Structure and Algorithms

Coding Languages: C, C++, Java and Javascript

Web Development: ReactJs, Typescript, NextJs, Java SE, Java EE, MongoDB, SQL, MySQL

Development Tools: Eclipse IDE, VS code, git, github

Core Subjects: Object Oriented Programming, Operating System, DBMS and Computer Networks

Work Experience

Centernet Private Limited

November 2023 – Present

ReactJs Developer

Remote

- Developed scalable and responsive e-commerce features with **Next.js, TypeScript, and ReactJS**.
- Using TypeScript, I implemented effective data handling and state management in ReactJS, which increased code maintainability by 15% and assured reliable application performance.

Projects

Student Database Management System | Java SE, Jakarta EE, MySQL | Link

- Spearheaded the creation of a robust Student Database Management System in **Java and MySQL**, enabling seamless data entry, retrieval, and security.
- Streamlined student information management, showcasing proficiency in database administration and software engineering.

Manage-Wise | ReactJs, JQuery, TailWindCSS | Live link

- Designed and developed a modern and visually appealing web application using **ReactJS, Framer Motion** for seamless animations, and **Tailwind CSS** for a responsive and elegant user interface.
- Effectively implemented a combination of cutting-edge technologies to enhance the user experience and ensure optimal performance.

StudyNation | ReactJs, JQuery, TailWindCSS | Live link

- Built Frontend of Educational Platform for Students and Instructors by using **UseState Hook, HTML, JavaScript and Tailwind**.
- This project is integrated with login, signup and logout functionalities.

Admin-Dashboard | ReactJs, Typescript | Live link

- Engineered an efficient admin dashboard using **ReactJS, Tailwind CSS, and React Material Table**, seamlessly integrating CRUD functionalities.
- Employed local storage for persistent data storage, ensuring a user-friendly and dynamic experience for data management.

Coding Profile Links

- Leetcode GeeksforGeeks Github

Achievements and Extra Curriculum

- Ranked in the top 17.53% of coders on LeetCode.
- Solved **350+ Data Structures Algorithms Problems** on LeetCode and GeeksforGeeks.
- 3 Stars coder at CodeChef Rank coding platform
- Orphanage Head of NGO - **Kaarwaa.N**
